

"WIFE AND I ARE FREE FROM INFLUENZA"**"Use MENTH ALBA as a Preventative," Says Prominent Alabama Druggist.**

"I assure you I did not say one word so much in praise of Menth-Alba in my letter the other day, for it's the best preparation of its kind I have ever used. I have known for a long time that it was the best remedy that ever entered a man's house, and I have converted quite a number to the truth. Now I can't keep it in. I have missed many sales by not having a supply on hand, for I did not know that everybody in the United States would have influenza before I got that last lot by express."

"While I and my wife are free from influenza, while our neighbors and neighbors' children are coughing and sneezing and piled up in bed sick. We use Menth-Alba. A letter from our daughter in school at Florence tells of her good health and of the numbers in the school dormitories where she boards, down with influenza. Many deaths in that section. She, too, uses Menth-Alba. It's a great remedy for other troubles such as coughs, colds, sore throat, croup, colds in head and similar troubles."

In my store I have been thrown with people who ask for something good for influenza, or gripe, as they call it, and the next breath they cough in my face. This has been going on for over two weeks, and even with all this exposure, I am still as free from it today as twelve months ago. I take a little Menth-Alba on my finger several times a day and insert in each nostril."

M. L. LANTIER, Dora, Ala.

Menth-Alba is a pure, snow-white compound of well-known volatile oils that are antiseptic, soothing and healing. It clears the air passages, removes the incrustations of the air passages and keeps the mucous lining of the nose and throat in healthy condition.

Keep yourself free from infection. Insert little pieces of Menth-Alba in the nose several times a day. It's also important to keep the bowels open.

Menth-Alba can be found at all good drug stores in 25c and 50c jars. Spurlin-Neal Co., Nashville, Tenn., will gladly send free sample on request.

HARRY GRAVES
CORNER PINE AND FIFTH STS.
PHONE MAIN 1623**Influenza, Colds,**
Pneumonia,
Sore Throat**Yields Quickly to Antiseptic Oil.**

Many thousands are finding relief from influenza, and preventing pneumonia, it is said, by the use of Miller's Antiseptic Oil (known as Snake Oil). Its great penetrating pain relieving qualities insure almost instant relief when applied freely on the chest or throat when first symptoms come. The oil penetrates through to the affected parts and opens up the air passages, makes breathing easy, stops the pains in the back, and for the cough a few drops on a little sugar will relieve the worst cough in no time. Don't fail to have a bottle on hand when the attack comes on, and if used according to directions results are assured, or your money back. On sale by Jo Anderson, druggist, Chattanooga, Tenn. 30c, 60c and \$1 bottles.—(Adv.)

HERE IS ONE THING THAT
IS ABSOLUTELY IMPOSSIBLE**Rheumatism Has Never Been**
Cured by Liniments or Lotions,
and Never Will Be.

You never knew of Rheumatism—that most painful source of suffering—being cured by liniments, lotions or other external applications. And you will never see anything but temporary relief afforded by such makeshifts.

But why be satisfied with temporary relief from the pangs of pain which are sure to return with increased severity, when there is permanent relief within your reach? Science has proven that Rheumatism is a disordered condition of the blood. How then, can satisfactory results be expected from any treatment that does not reach the

blood, the seat of the trouble, and rid the system of the cause of the distress? S. S. S. is one blood remedy that has for more than fifty years been giving relief to even the most aggravated and stubborn cases of Rheumatism. It cleanses and purifies the blood by routing out all traces of disease. The experience of others who have taken S. S. S. will convince you that it will promptly reach your case. You can obtain this valuable remedy at any drug store.

A valuable book on Rheumatism and its treatment, together with expert medical advice about your own individual case, will be sent absolutely free. Write today to Medical Department, Swift Specific Co., 431 Swift Laboratory, Atlanta, Ga.—(Adv.)

Telephone Main 1944**EPIDEMIC OF INFLUENZA****SEEMS TO BE ON WANE****SCOTTSBORO AUTHORITIES**
HAVE CHECKED RAVAGES.**Few Cases at Dalton, Ga., and**
Dayton, Tenn.—Reports
From Other Sections.

Huntsville, Ala., Oct. 21.—Dr. Carl Grote reports epidemic of influenza as passing. This city and Madison county have been hit hard, but there is now a general feeling of rest and it is believed the crisis has passed. There are still many cases, including several of pneumonia, but none are desperately ill. The restrictions prohibiting general gatherings are still in force.

The official reports Saturday showed seven deaths in the city and three in the county. Ernest Karthaus, prominent jeweler and importer, member of E. Karthaus Sons, died Saturday afternoon, aged 41. He was a bachelor.

Rockwood, Oct. 21.—The little mining town of Catoosa, near here, has suffered severely from the epidemic. The county physician and his entire family are down with the disease. Many miners are sick and the output of the Bashout mines has been seriously affected.

The situation at Coalfield is improving. There have been over twenty deaths at this place.

Among local cases are J. E. Cox, cashier of the First National bank; southern Railway Agent E. E. Ewing; Assistant Postmistress Virginia Hinds and many others. Two deaths occurred in one family here Saturday night.

Dayton, Oct. 21.—Dayton and community have suffered from the flu, but the situation is not alarming. Schools were closed on the first outbreak. Several doctors were attacked with the disease, but all are convalescing.

The disease has been prevalent in Graysville and quite a number of prominent people have been afflicted, but deaths have been few.

Checked at Scottsboro.
Scottsboro, Ala., Oct. 21.—The influenza which has been prevalent in this community and county has been checked to a great extent due, no doubt, to the early precautions taken by the county health officer and authorities in general. When the disease first began spreading the board of health and aldermen met and decided on ways to close the schools, theaters and poolrooms and to keep all persons quarantined who had been exposed to it.

So far only two deaths in the city have been recorded; Mr. Frank Harris, a local cotton exchange man, and a negro boy of John Sanford. There have been several deaths in Jackson county, but taking it in comparison with other counties, the death rate has been exceedingly small. Drs. Bridges, Boyd and Blakemore have been going day and night for the last ten days and they report the situation considerably improved.

Only Three Deaths.
Dalton, Ga., Oct. 21.—Dalton has so far practically escaped the ravages of influenza. Up to the present only three deaths have resulted, all having occurred in the mill district in North Dalton. There are probably less than 100 cases in the city, only a few in the central and southern part of Dalton. The situation is considered well in hand and it has not been thought necessary to close the schools and churches.

KILL STRETCHER BEARERS**Another Evidence of Hun Atrocity**
Told in Letter From Sergt. Boyle

Knoxville, Oct. 21.—(Special).—How the Hun deceived Red Cross stretcher bearers by false calls for help and then killed many of them, is told by Sergt. E. D. Boyle, of the famous Fourth Montreal battalion who is in Knoxville. Sergt. Boyle, with L. O. Armstrong, Canadian lecturer, is touring the southern division of the Red Cross.

Sergt. Boyle, in speaking of the battle of Festubert, which took place May 23, 1915, in which his contingent participated, says that two companies were detailed to dig an entrenchment

SPANISH "FLU"
WORSE THAN
HUN BULLETS**Claiming More Victims Than**
Battle Front.**Authorities Say Disease Can Be**
Avoided.**System Can Be Built Up So**
That It Will Withstand
Germs of Influen'a.

According to carefully compiled statistics it is an indisputable fact that the Spanish influenza epidemic which is daily claiming far more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt according to leading authorities, the power of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish influenza, which is one of the most contagious diseases known.

It is persons who are suffering from lowered vitality, who are weak and run-down and who have not the strength to throw it off who are the earliest victims. Persons who have had colds, who are suffering from catarrhal troubles or inflammation of the mucous membranes are especially susceptible, as the inflamed mucous membrane linings of the nose and throat are an open door to the germs. This condition is almost always accompanied by a weakened condition of the system.

If you are suffering from any of these symptoms, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

This statement is easily proven by the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years' time over Ten Million Bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the above troubles with the most astonishing and gratifying results.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way.

In connection with the Tanlac treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle.

Tanlac is sold in Chattanooga exclusively by the Live & Let Live Drug Co.—(Adv.)

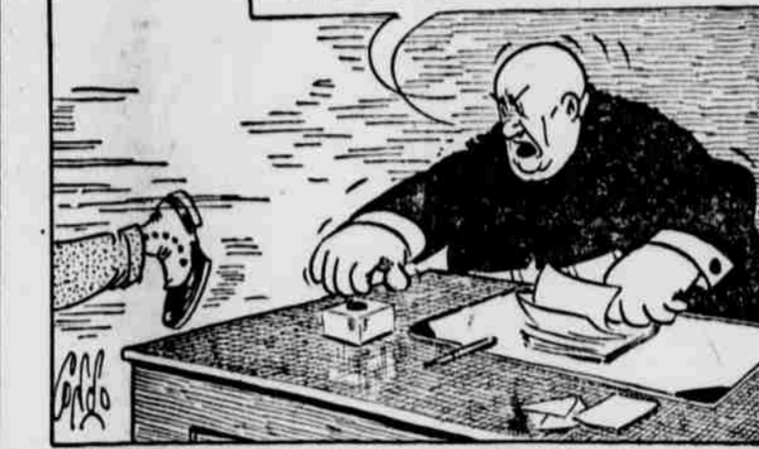

OUTBURSTS OF EVERETT TRUE

By Condo

"AH, MY DEAR SIR, I AM A BOOKKEEPER, AND I HAVE BEEN IDENTIFIED WITH A NUMBER OF BUSINESS HOUSES IN NEW YORK AND ELSEWHERE, BUT I AM DISENGAGED FOR THE PRESENT, AND I THOUGHT THEY MIGHT BE AN OPENING HERE IN THIS OFFICE."

"YES, WE HAVE TWO OPENINGS—THE ONE YOU BLEW IN THROUGH JUST NOW, AND THE BACK DOOR! TAKE YOUR CHOICE !!!"

In a nearby orchard. They were surprised by German snipers and practically both companies were wiped out, the Red Cross stretcher bearers also being killed. A medical officer called for volunteer stretcher bearers, and eight men, among whom was Sergt. Boyle, responded. Over the top they went, without arms of any kind, advancing in the direction in which the slaughter had occurred. In the darkness they could feel the soft yielding of a body, as they inadvertently stepped on one of the corpses with the ground was strewn; or they picked over with a horrid sensation as they felt the spikes of their boots crunch through the skull of a dead soldier.

They reached their destination, but were puzzled at not finding any wounded, when a plaintive cry from another quarter, calling for stretcher bearers, reached their ears. They hastened in the direction of the voice, but in a moment were in the thick of German bullets. The Germans had removed the wounded, and the cry was only a decoy to draw the stretcher bearers in range of the German firing. Four of the volunteers were killed, and two wounded, only two escaping unhurt.

POLITICS ADJOURNS

That is, As Far As Democratic Candidates for State Offices Is Concerned.
Hill McAlester, chairman of the state democratic committee, announces that the schedule of political speeches planned to take place after the liberty loan drive, has been declared off because of the epidemic of influenza. Mr. McAlester said it had hope at headquarters that, beginning today, we could put a great number of speakers in every county, and during the last ten days to bring forth to the attention of the people the fact that we are to have a very important election on Nov. 5. In addition to distinguished democrats of the state, we hoped to have Vice-President Marshall, Senator Underwood of Kentucky, Senator Robinson of Arkansas, and others to participate in this whirlwind campaign.

"On application to the state health department we ascertained that they would view with alarm any such program as I have outlined as being hurtful to the influenza situation in the state. We have accordingly been compelled, temporarily, at least, to abandon this speaking campaign."

Mr. McAlester says this leaves the newspapers as the only means of advertising the election, and he has sent out an appeal to the democratic press to rally to the party's support.

Republicans to Campaign.
The republicans and their opponents in upper East Tennessee, while adjourning politics for the loan campaign announce that they will conduct this campaign according to plans heretofore announced.

J. Will Taylor, republican nominee for congress from the Second congressional district, is planning a speaking campaign in the ten counties of the district.

Sam Johnson, democratic nominee of the Second district, is likewise preparing a list of speaking dates which will keep him busy from next Monday until the close of the campaign.

Congressman B. W. Austin, candidate to succeed himself on an independent ticket, has been in Knoxville for the past two weeks, working in the interest of the liberty loan campaign. He will probably begin a speaking campaign in the various counties of the district next week.

It is not anticipated that Senator John K. Shields will come to the state for the campaign, because of his duties keeping him in Washington.

CALLS OFF CONGRESS

Logging Men Not to Meet Account of Epidemic of Influenza.
Knoxville, Oct. 19.—Meeting of Appalachian logging chairman at Lexington, Ky., Oct. 22-23, has been called off on account of influenza.

ABOUT TWO HUNDRED DEAD**Porto Rico Earthquake Damage**
Reaches Millions.

San Juan, Porto Rico, Thursday, Oct. 17.—Latest estimates on the loss of life in the recent earthquake which shook Porto Rico place the total at not more than 200, mostly at or near Mayaguez. The property damage is estimated at \$5,000,000. Through train service between San Juan and Mayaguez was resumed last night.

Because of unsatisfactory measures taken to protect life and property at Mayaguez after the earthquake, Gov. Yagar has appointed a new mayor for the town, with instructions to proceed immediately to restore order there. Until yesterday laborers in the town demanded five times their regular wage for emergency and relief work. They went to work, however, when the government issued orders that the men must work at reasonable wages or suffer for the consequences. The coast geodetic survey station at Vieques island, off the east coast of Porto Rico, reports the cause of the earthquake as probably due to a shifting of rock. Under the pressure of the first shock the

**Resinol**
the tested skin treatment

"Resinol is what you want for your skin trouble—Resinol to stop the itching and burning—Resinol to heal the eruption. This gentle ointment has been so effective for years in treating eczema, ring worm, itching, burning rashes, and sores, that it has become a standard skin treatment. It contains nothing that could irritate the tenderest skin."

Your druggist will also tell you that Resinol Ointment is excellent for relieving the smart, itch, and burn of mosquito-bites, and insect-stings. It soothes and cools skins burned by wind or sun. All dealers sell Resinol Ointment.

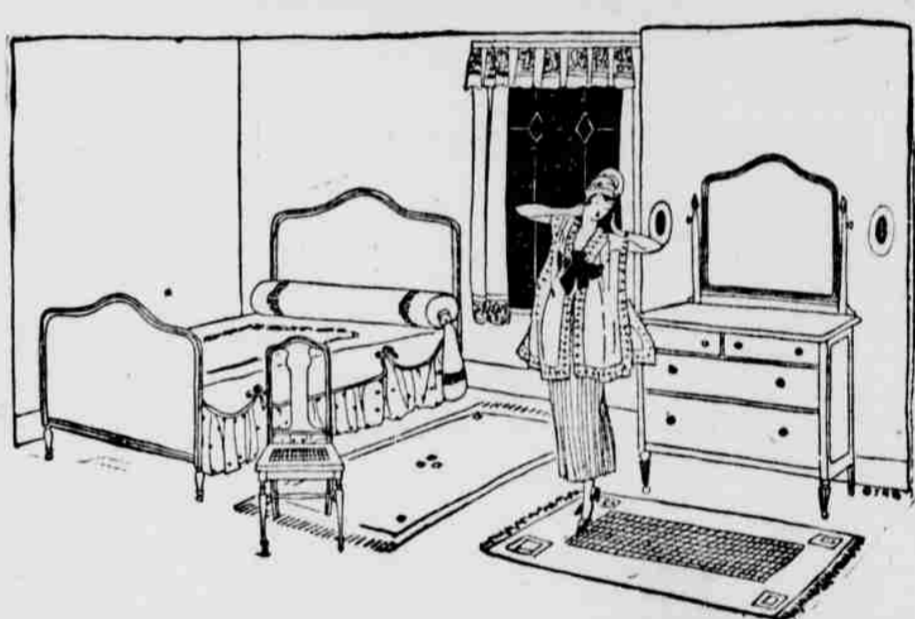

Men who use Resinol Shaving Stick find soothing lotions unnecessary.
